

September 2023

Dear Parent/Carer,

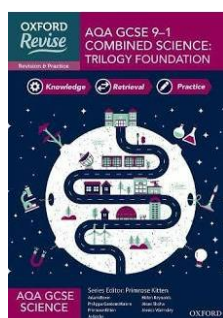

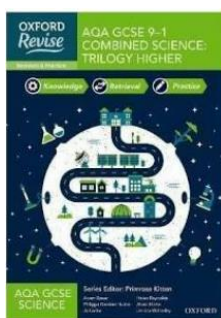

Hope this letter finds you and your family well.

In Year 11, students have two mock GCSE exam series in order to prepare for their actual GCSE in the Summer. Your child will be sitting their first GCSE Mock exams from **16.10.23 to 03.11.23**. The dates of each subject mock exam will be shared with students prior to the mock exam series.

To support your child in their Science mocks please find below a topic list which your child needs to use to prepare for their mocks.

Biology Paper 1	Chemistry Paper 1	Physics Paper 1
Cell Biology Organisation Infection & Response Bioenergetics	Atomic Structure Bonding Quantitative Chemistry Chemical Changes Energy Changes	Energy Electricity Particle Model Atomic Structure

Intervention in school will be for targeted students and more information will follow.

We are very pleased that the Science department were able to provide each Year 11 student with a revision guide to support their independent study at home.

For each topic, the revision guide has a **knowledge section, retrieval practice** and **application exam practice section**.

Please ensure your child has a revision timetable at home that they are using to ensure that they are also independently reviewing the topics already taught since Year 10. This will allow them to identify key areas they need support in and ask their teachers for support. Please find below some websites that your child may find useful.

Use the link or QR Code to visit the Biology Padlet for revision resources:

We thank you in advance for your support and should you have any queries, please do not hesitate to contact us.

Kind regards,

Madam Tejan
Head of Science
